Dear Sir/Ma'am

I'm writing this character reference letter for my brother Tom Harley who currently stands accused in the murder case of his office colleague. I was planning to write this letter even before the court had asked me yet I feel thankful for the consideration of this character reference letter. I have basically grown up with my brother as we both are almost the same age. During this period of our upbringing, we have never committed even a minor kind of crime within our home or across society.

This news of murder crime against my brother came just like a bolt of blue to me. At first, I couldn't believe my senses that my brother would ever get into something like this. With this character reference letter, I would like to define the innocent character of my brother. I strongly believe he has been trapped in this whole scenario. I urge the court to please kindly look into the matter with all possible close angles. My brother deserves a chance to prove his innocence and we can file our testimony to stand by my brother.

I believe my character reference letter for my brother would be given due consideration in the next hearing of the court.

Thanks & regards
Sarah Stone
