Hello,

I am writing to request a character reference letter for someone who is facing court drug charges. The person I am writing to is an upstanding citizen who has never had any prior criminal record. I believe that if this person had the opportunity to have a character reference letter written for them, it would provide a positive image to the court and would help in their case. If you are able to provide me with a letter of reference, I would be very grateful. Please let me know if you are able and when you could have the letter ready. Thank you in advance for your help.

Yours sincerely,
Michael Hong
