Dear Hiring Manager,

May I direct you to Virginia Huffman for a job as a babysitter of children from infant to 12 years old? Virginia once looked after my children before our family had to relocate on account of my father's job transfer. I felt bad about having to relocate, but I was eager to on the part of my grandmother so as to make sure other children could also benefit from Virginia's work.

Virginia isn't just wonderful with children, she is also an incredible babysitter who can stay calm in a crisis. She is an expert when it comes to first aid and CPR, and I knew that with certainty each time I needed her to act in an emergency. Virginia adheres to the instructions precisely and is extremely cautious when it comes to monitoring calls and any unexpected visitors.

My favourite thing about Virginia was her ability to maintain the children's calm regardless of what was going on outside. Virginia was able to keep time with any situation, whether it was a strange noise or the kids just wanted another hour. I couldn't stress enough how valuable her babysitting capabilities are. If you need to hire a babysitter in Virginia, I'd strongly recommend that you get in touch with her.

Regards,  
Ann D. Carter
