To,
Dr. Charles

Dear Dr. Charles

I'm writing this character reference letter to endorse miss Shyla to be considered for the post of senior nurse at the hospital. She has undergone her nursing internship under me. I have seen her working skills as a professional nurse and taking care of all the respective tasks as part of her job.

Moreover, she has excelled the quite a decent nursing professionalism in the nursing domain. She is having working experience of more than 3 years now. During this period she has gone through all the possible challenges as part of her job and medical domain. I highly believe that she would be taking the perfect care of the hospital during her working period.

Thanks & Regards
Emily Raid
