Date: October 5, 1972

Your Honour,

My name is willie and I am Jonathan's parent. I am writing this letter to testify to Jonathan's character and to request leniency in his sentencing. Jonathan recognizes that he made a terrible mistake and a poor decision in breaking the law and is ready and willing to accept rehabilitation and probation that will actually help him return to a productive life.

Jonathan is a member of our family and has always done a wonderful job. While this has been a difficult and thankless task, he has always performed it gladly and without complaint. However, he is also responsible and has been struggling under the weight of stress and demand. I believe this crime was born of temporary frustration and not in character at all.

Please contact me if you require any further information about my son. He is a moral, dedicated person who is sorely needed at home and in his community.

Thank you,  
Willie Moon
