Subject – Character reference letter for the immigration to Mr. Bill Gates

Dear Sir/Ma'am,

I'm writing this character reference letter to support the immigration of my old known colleague Mr. Bill Gates. We share the work history at Microsoft for more than a decade now and are therefore well known to each other. I'm currently working as the CEO of Tesla and living in California for the last 5 years. My colleague is also wishing to move to California and is seeking immigration approval for the same.

I hereby endorse the character specifications of Mr. Bill Gates to consider him in good books for the immigration purpose. He has always been a hard-working person and has always shown his ultimate character towards the company and the place that he lived in. I have never witnessed any kind of sickness in his character that can harm the dignity of the place that he lives in. Kindly consider him good for the immigration purpose and grant him citizenship as well of the country.

Thanks & Regards
Elon Musk
