Subject: Character Reference Letter for Scholarship

Dear: Sir or Dear Scholarship Committee,

I am writing to introduce and recommend Aimme for the Mitchell scholarship. Currently, I am her Teacher at Princeton university and have had the opportunity to work closely with him/her on various programs and activities both curricular and extracurricular. From the very first day I met her, Aimme impressed me with her aptitude to learn, grasp and articulate different concepts in and out of the classroom. Aimme ability to conceptualize academic assignments and bring innovation to problem-solving has endeared her to me as I now see her as a rising light in the field of literary appreciation and criticism which happens to be her key area of interest.

It is my candid opinion that based on Aimme's sterling qualities, she is the right candidate for your scholarship which normally should go to the student that possesses the highest academic and leadership potential among the applicants. I reiterate with all sense of responsibility that Aimme is an embodiment of all these qualities. I would also like to bring to your knowledge that my student was the valedictory speaker at this year's end-of-academic year event. Not only was she is the class choice for speaker, but she was instrumental in organizing the event. Aimme also has an excellent academic record which is a testimony of her diligence in school work.

Finally, permit me to state here that Aimme is a mature, intelligent, and goal-oriented young lad who, in my professional estimation, will be a valued addition to your community. I support Aimme for this scholarship without any reservations.

Be rest assured of my highest regards.

Thanks,

Yours truly

Debbie D. Trotter
