Subject: character reference letter for drug charges.

Your honour,

I am writing this letter on behalf of Veronica regarding the case of drug smuggling that she is currently facing. This took me by complete surprise as the veronica I know doesn't have such character.

I have known her since childhood and have always found her very focused and hard-working. He always did well in her studies and was really sociable and fun-loving. She took part in a lot of events and programs and was always loved by the teachers. Even after our graduation, she had the perfect job and even helped me out in many instances securing a job.

I believe it is the result of very bad influences. I strongly feel that society will not be affected if she wasn't sentenced to imprisonment. This would highly affect her future and deprive the community of her valuable deeds. She is deeply regretful of this unacceptable behaviour and has shown enthusiasm towards doing this right.

I am quite confident of her will to improve and thus urge you to restore your faith in her. She is a reliable, well-behaved, and dignified person who has been the subject of bad impact. I request you to not hamper her career by sending her to prison and bereaving him of invaluable studies.

Please feel free to connect with me at my phone number or email address] for any further clarification.

Sincerely,

Latonya A. Martin
