Fullerton, CA 93632

Subject: Letter for Pardon

Dear Governor,

I am writing to urge you to consider granting pardons to my brother and sister-in-law, Tom and Tracey Williams. Tom and Tracey were convicted of marijuana possession, and they have both since made enormous efforts to turn their lives around. They have been involved in drug rehabilitation programs, volunteer work, and attended community service events. They have also been law-abiding citizens for many years now.

Tom and Tracey have a teenage daughter, who is now attending college, and their family has been very supportive of their efforts to turn their lives around.

In my opinion, there is no reason that Tom and Tracey should be punished for their past mistake. They have taken responsibility for what they did, and they have been doing everything they can to make things right in their lives. I do not agree with the court's decision to sentence Tom and Tracey to prison. I hope that they will be able to use their time in prison to work on their problems and get their lives back on track. The law should not be used to punish people simply because they were involved in a crime that was wrong. I hope that the court will reconsider its decision, and I urge you to vote in favour of the motion for reconsideration filed by Tom and Tracey.

Sincerely,

Jack Velazco
