Dear Mam,

In reference to Mr and Mrs Miguel's adoption, we have managed to sit with them for three weeks and after a thorough and conclusive examination, they have our approval. During this period they invited us into their home and showed us where the children will be staying, what activities they will be doing and which schools they plan to take them to, along with our modalities. These include their stable personal relationship as a couple, their financial capability to raise the two teenage children as well as their religious background. we highly recommend them as parents and should any additional information be based on our inspection we will provide it directly or through the child welfare social office.

Yours sincerely

Floyd Boyd
