Sub: Letter of reference for social worker

Dear sir,

As the head of social work, I am writing this letter to refer Florence for the post of social worker at your organisation. For the last 7 years, I have had the honour of working with him and can vouch for him as a rising star in this noble field.

Throughout his participation in our highly-demanding social work programs and events, he has maintained high rewards, always making us proud of him or her. Apart from this, he has also worked as a volunteer for various fundraising events and has also successfully pulled off many weekend shifts at a local organization. As he volunteered, he demonstrated not only the willingness to sacrifice his precious time and energy for others but also a strong grasp of ethics and principles.

You might already know how challenging the field of social work can be, and he has always displayed exceptional emotional stability through his work and extra-curricular activities for others. He has given his clients a chance to live a new, much better, and improved life

I truly believe that he will be an ideal fit for your organization as his experience, achievements, and skills have given him a realistic grasp of the various demands of the job.

For further details on him or if you have any questions regarding anything, do reach out to me at email:brianSbanks@armyspy.com or contact: 440-776-9270. I will be glad to help.

Sincerely,

[Brian S. Banks]
