Dear sir,

This letter is to support Rosa's pending citizenship application. I am a manager at ABC company and have been a colleague of mine for many years. During the time we have worked together, I have known her to be a very diligent worker and a kind-hearted person who really cares about those around them. At work, she always goes out of their way to help others and is very dedicated to the team as a whole. She has been very successful in their work overall and has been an invaluable addition to the company.

Additionally, rosa is very involved socially in our local community. She is a beloved friend and neighbour to many people in town, and she frequently attends community events. she also participated in volunteer work and has gone out of their way to help others during times of need. She is also a great role model for their family and is committed to providing a good life for their children.

rosa is a wonderful member of our community and I highly recommend they become a naturalized citizen as soon as possible. Please contact me if you have any other questions.

Sincerely,
James Brandt
