Date: November 11, 1938

Dear Sir,

I am very delighted to recommend Robert Wilcox for the united states marine corps. I have known him for 7 years as an executive and responsible naval.

During the time I have been his mentor, I have been impressed by Robert Wilcox's professional achievements, his relentless pursuit of the subject and his perseverance. I met Robert when he joined the staff of our military ship as First Lieutenant. Since then, he has shown progress both in their professional field and in his personal qualities.

From my 30-year career in the U.S. Navy as a captain, I am convinced that Lieutenant Robert needs further education, given his aspirations and talents. I am ready to tell you more about his personality, so I am waiting for your call or write if necessary.

Sincerely,

Daniel Hensley
